To ensure the University distributes Emergency Financial Aid Grants to students who incurred expenses related to the disruption of campus operations due to the coronavirus, such as food, housing, course materials, technology, health care and child-care expenses, the University developed an application process through which students could apply for such funding. On this grant application, students are asked to provide information about their financial need because of the coronavirus. The University determined that an application process was better to capture the students to which grants would be provided as this would help ensure that students with need resulting from the coronavirus would receive monies as opposed to providing monies to all students, some of who might not have need.

A University committee was formed to review submitted applications to first determine if the student met the eligibility for aid under the CARES act criteria (i.e. Title IV eligible, not a fully online student, etc.) and incurred expenses as a because of the disruption of campus operations due to the coronavirus. If the student meets all these criteria, they receive a Emergency Financial Aid Grant for \$500 for each term for which they applied for the grant. Students receive the Emergency Financial Aid Grants by either paper check or ACH. As funding permits, the University will continue to make the funds available to applicants in the upcoming summer, fall and winter terms.

7. Any instructions, directions, or guidance provided by the institution to students concerning the Emergency Financial Aid Grants.

The University posted a general announcement regarding Emergency Financial Aid Grants on the COVID-19 section of its website on April 6, 2020 for the Spring term, July 13, 2020 for the Summer term and October 1, 2020 for the Fall term. A link to this announcement can be found at www.nl.edu/alert. Students were also made aware of these funds and the application process through various methods, including direct e-mails, references to such in e-mail correspondences and in communications by student counselors, advisors and coaches.

Grant recipients are provided notification that the grant was funded by the CARES Act as well as the requirement of the student to use the funds on expenses related to the disruption of the University campus operations due to the coronavirus. The notice to the students also indicated that by accepting these funds, they agree to spend the monies for the purposes indicated on their application.
