

How to enable Turnitin

- In your D2L course, click on “Assignments”
- Click on the dropdown arrow, next to the name of the assignment folder.

Milestones  			
☐	Milestone 1: Time Management Analysis	▼ 	0
☐	Milestone 2: Annotated Bibliography	▼ 	0
☐	Milestone 3: My Support Network	▼ 	0
☐	Milestone 4: Areas of Growth	▼ 	0

- Click on “edit submission folder”

- Click on the Turnitin link

Edit Submission Folder - Milestone 1: Time Management Analysis

Milestone 1: Time Management Analysis

Folder Type

Individual submission folder

Category

- Make sure that the box, “Enable GradeMark for this folder” is checked.
 - I do not think it matters what setting you choose for the “transfer” setting.
- Make sure the box, “Enable Originality Check” is marked.
 - It is up to you, if you want to “Allow learners to see Turnitin similarity scores”.
 - I would keep the “Automatically originality checking on all submissions” checked.
 - You will also see that “More options in Turnitin” is available. Instructors can enable more settings if they wish.
- Make sure you click on “save and close” when you are done choosing your settings.
- If you did everything correctly, you will see a small icon, with binoculars, to indicate that Turnitin has been enabled.
