

Design. Build. Elevate. Create the Digital Home of AI & EDU Innovation.

Website Design Intern

What You'll Do:

You'll help design and maintain websites that showcase our programs, projects, and impact. You'll refine layouts, test usability, and make sure every visitor has a seamless experience exploring how AI and education connect.

Skills You Will Need:

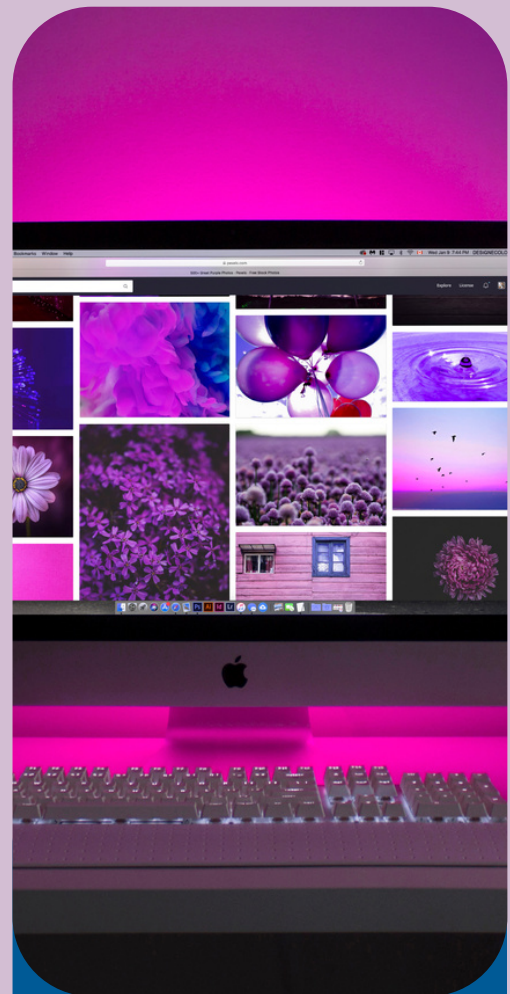

- Website structure, navigation, and accessibility design
- Attention to detail and version control using shared drives
- Time management and clear communication with project leads

What You'll Gain:

- Real-world experience developing professional education-focused sites
- Mentorship in design thinking and digital storytelling
- A strong portfolio piece highlighting user-centered web design

Ideal for

Creative problem solvers who enjoy blending design and functionality to make information clear, engaging, and accessible.
